APPLICATION FOR PERMIT

Serial No. 4483

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of first receipt and filing in State Engineer's office JUN 28 1917
Returned to applicant for correction JUN 30 1917
Corrected application filed

The undersigned Lavina DeW. Nelson,
Name of applicant.
of Winnemucca, County of Humboldt,
State of Nevada, hereby make s application for
permission to appropriate the public waters of the State of Nevada,
as hereinafter stated. (If applicant is a corporation give date and
place of incorporation.)

1. The source of the proposed appropriation is Little Mud Springs,
Name of stream, lake, or other source.
2. The amount of water applied for is 0.40 second-feet.
One second-foot equals 40 miners' inches.
3. The water to be used for irrigation, stock and domestic purposes.
Irrigation, power, mining, manufacturing, domestic, or other use.
4. The water is to be diverted from its source at the following
point: This is an application for change in point of diversion and
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land it should be so stated.
place of use of water granted under permit No. 3670. See Supplemental
Sheet.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

- (a) Number of acres to be irrigated is _____
- (b) Description of land to be irrigated _____
Describe by legal subdivision, or if on unsurveyed land it

should be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

- (c) Irrigation will begin about _____ and end about _____
Month.
_____, of each year.
Month.

IF WATER IS TO BE USED FOR POWER, MINING, TRANSPORTATION, OR OTHER USE, SUPPLY THE
FOLLOWING INFORMATION:

- (d) Power to be developed is _____ horsepower.
- (e) Works to be located _____
Give 40-acre subdivision on which works will be located, or locate by course and distance to a section corner.

- (f) Point of return of water to stream _____
Describe in same manner as point of diversion.

- (g) Remarks _____

DESCRIPTION OF PROPOSED WORKS

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water

is to be stored in reservoirs it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

5. Estimated cost of works _____

6. Estimated time required to construct works _____

7. Remarks _____

For use of applicant.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed _____ cubic feet per second.

Actual construction work shall begin on or before _____

Proof of commencement of work shall be filed before _____

Work must be prosecuted with reasonable diligence and be completed on or before _____

Application of water to beneficial use shall be made on or before _____ Proof of the application of water to beneficial use must be filed with State Engineer on or before _____

WITNESS MY HAND AND SEAL this _____ day

of _____

State Engineer.

ORIGINAL

SUPPLEMENTAL SHEET.

SERIAL NO. 4483

APPLICATION TO CHANGE THE POINT OF DIVERSION AND PLACE OF USE
OF THE WATERS OF THE STATE OF NEVADA.

Date of first receipt and filing in the State Engineers office
JUN 28 1917

Returned to applicant for correction JUN 30 1917

Corrected application filed _____

The undersigned, Lavina DeW. Nelson, of Winnemucca, County of Humboldt, State of Nevada, hereby makes application to change the point of diversion and place of use of waters heretofore appropriated under Permit No. 3670.

The source of the water supply of the proposed change is Little Mud Springs.

The quantity of the proposed change is 0.40 ft. per second.

The water is to be used for irrigation, stock and domestic purposes.

The water is to be diverted from its source at the following point: SE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 9, T. 31 N., R. 38 E., M.D.M.

The existing point of diversion is the same, but described in Permit as NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 8, T. 31 N., R. 38 E., M.D.M. being a mistake in location.

The water, herewith desired to be changed, has not been beneficially used up to the present time, but was applied for and described in Permit No. 3670 as the NE $\frac{1}{4}$ Sec. 35, T. 32 N., R. 38 E., M.D.M.

The number of acres heretofore irrigated is none.

The number of acres proposed to irrigate is 40 acres.

The description of the land proposed to be irrigated is as follows: SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 4, T. 31 N., R. 38 E., M.D.M.

The estimated cost of the proposed works is \$100.00

The estimated time required to construct the works is 3 years.

Irrigation will begin about April 1st of each year and end about September 30th of each year.

The water has not been used as yet under Permit No. 3670.

This application is made for the purpose of correcting error in point of diversion described in Permit No. 3670 and for the purpose of changing place of use of water to land near the spring as it will probably be impossible to take water to land described in Permit No. 3670 on account of the great distance, without cost being prohibitive as it would have to be either concrete pipe or concrete ditch. The amount of water in spring will probably irrigate 40 acres. Not more.

Lavina DeW. Nelson

AMENDED

SERIAL NO. 4483

APPLICATION TO CHANGE THE POINT OF DIVERSION AND PLACE OF
USE OF THE WATERS OF THE STATE OF NEVADA.

Date of first receipt and filing in the State Engineers office JUN 28 1917
Returned to applicant for correction JUN 30 1917
Corrected application filed JUL-7 1917

The undersigned, Lavina A. Nelson, of Winnemucca, Humboldt County, State of Nevada, hereby makes application to change the point of diversion and place of use of the waters heretofore appropriated under Permit No. 3670.

The source of the water supply of the proposed change is Little Mud Springs.

The quantity of the proposed change is 0.40 cu. ft. per second.

The water is to be used for irrigation, stock and domestic purposes.

The water is to be diverted from its source at the following point:

SE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 31 N., R. 38 E., M.D.M.

The existing point of diversion is the same, but described in Permit No. 3670 as NE $\frac{1}{4}$ NW $\frac{1}{4}$ Sec. 8, T. 31 N., R. 38 E., M.D.M., being a mistake in the location.

The water herewith desired to be changed, has not been beneficially used up to the present time, but was applied for and described in Permit No. 3670, as the NE $\frac{1}{4}$ Sec. 35, T. 32 N., R. 38 E., M.D.M.

The number of acres heretofore irrigated is none.

The number of acres proposed to irrigate is 40

The description of the land proposed to be irrigated is as follows: SE $\frac{1}{4}$ SW $\frac{1}{4}$ Sec. 4, T. 31 N., R. 38 E., M.D.M.

The estimated cost of the proposed works is \$100.00

The estimated time required to construct works is 3 years.

Proposed works are a small diverting dam at the point of diversion and ditch about 1 x 3 ft. to land to be irrigated.

Irrigation will begin about April 1st of each year and end about September 30th of each year.

The water has not been used as yet under Permit No. 3670 and it is my intention to abandon all of the land under said Permit No. 3670 and use it on land described in this application, as there is only sufficient water in the spring to irrigate 40 acres.

This application is made for the purpose of correcting error in point of diversion described in Permit No. 3670 and for the purpose of changing place of use of water to land nearer the spring, as the cost of conveying water to land described in Permit No. 3670 will be too great.

Lavina A. Nelson,

SERIAL NO. 4483.

APPROVAL OF STATE ENGINEER.

This is to certify that I have examined the foregoing application and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of water granted under permit No. 3670, is issued with the understanding that no prior rights will be affected thereby. A standard headgate and weir must be installed at or near the new point of diversion to facilitate the measurement and control of water. The State reserves the right to regulate the use of water under these proposed changes at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed Four-tenths (0.4) cubic foot per second.

Actual construction work shall begin on or before June 16th, 1918.

Proof of commencement of work shall be filed before July 16th, 1918.

Work must be prosecuted with reasonable diligence and be completed on or before June 16th, 1920.

Proof of completion of work shall be filed before July 16th, 1920.

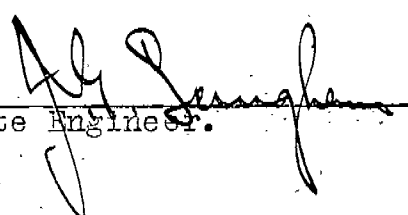

Application of water to beneficial use shall be made on or before

June 16th, 1921. Proof of the application of water to beneficial

use must be filed with State Engineer on or before July 16th, 1921.

WITNESS MY HAND AND SEAL this 16th day of November, 1917.

Proof of labor filed MAY 29 1918

State Engineer.
